NEW BUSINESS

- Barbara Noel contacted the school The drive through parking lot event is for the seniors that were in sports and couldn't play out the season. The event is to give closure for the seniors and the sports teams they were on. The event is to only take place for 20 minutes in the parking lot at the school. We might have an opportunity to help with a gift for each graduate, that is being planned and paid for by the teachers. There might be a need if the teachers don't have enough funds to cover all the seniors. I think we should consider helping with this if the cost is not to great. We will hear if there is a need for this by May 20. I would like the board to know about this so they can contemplate our support for this. We will find out details as we get closer to event. They are also possibly going to have a picnic this summer sometime after this virus has run its course . Maybe we could consider doing something for that. Would you put out an email to the board concerning this?
