## Kenneth Kugler Bio

Recently Kenneth Kugler joined the East Cocalico Lions Club.

Kenneth Kugler was born in Pottstown PA, May 25th, 1980 to Carol Maynard and Kenneth Kugler Sr. He grew up in lower Pottsgrove most of his childhood life and later moved to Douglassville PA. He graduated from Daniel Boone Jr / Sr High School in 1998 and graduated the same year from Berks County Career and Technology Center with a vocational degree in Culinary Arts.

Kenneth graduated Culinary in the top 5 of his class and immediately pursued his culinary career with his father when they started the Thun Trail Restaurant (pronounced Toon) on Rt. 724 in Douglassville / Birdsboro. Kenneth won WWMMR's best soup award for 'kickin crab corn chowder' and was published in their recipe cookoff edition cookbook. Later Kenneth decided to further his career by moving to Philadelphia and working on The Moshulu, one of the largest 4 masted sailing clipper ships, still in existence today (before COVID-19).

Kenneth worked at many other fine dining restaurants all over Philly. Another restaurant called Vesuvio, in Queen Village, he won an award for 'Best Steak Sandwich in Philly' and was featured in the Philadelphia Inquirer. Later he decided to take his talents into Baltimore. There he worked as the executive chef for a restaurant called Milan, in little Italy, and won Best of Baltimore 2004 for his Lamb Meatballs. He has also worked with Baltimore's Best Buddies Group Chapter (which is an organization that helps autistic and handicapped children make new friends and learn basic work etiquette, in real world settings). Best Buddies held a competition and he and his buddy won 1st place for a triple berry trifle dessert.

In 2013 Kenneth got a rare opportunity to partner with restaurants and own the kitchen side of a restaurant called Brewers Cask where he was able to create his own dishes and menus for the general public. This lasted about 2 years and Kenneth decided it was time to end his 16 years in his culinary career.

In 2015 Kenneth decided it was time to open his own company in the sales industry; renting out limos, party buses, motor coaches and stretch SUV's nationwide. He created the company Unlimited Charters and has not looked back. He also has designed state of the art websites for numerous people and clients as well has branded many companies for social media and project design work. Kenneth is well diverse in many fields of computer technology, as well as HTML, CSS, and some PHP coding languages.

Kenneth pushes to learn more on a daily basis and loves to help others when they are in need. He gets a lot of this from over the years of seeing Lion Leo Maynard help others in the community when they are in need, especially when he sees they need help and they don't even ask for it!

As a Lion, Kenneth pledges to help others as well, when they need help, and will do everything he can to do what's right for the community.

When you have a chance to meet Kenneth, please introduce yourself and welcome him into the Club.

#### 5 ways to avoid 🇺🇸 US COVID-19 vaccination scams online

1. There is no charge for the vaccine, but you may have to pay an administration fee.
2. COVID-19 vaccines are only given at authorized sites such as hospitals, pharmacies, or mass hubs.
3. You cannot pay to put your name on a vaccine waiting list — these do not exist.
4. There is no process in place to pay to receive the COVID-19 vaccine ahead of schedule.
5. If in doubt, contact the CDC or your healthcare provider directly.

## +++ COVID SCAM ALERTS +++

### Common COVID-19 vaccination scams

#### Phishing scams

The most common scam is via an official looking email promising a vaccine, but only if you fill in a form that includes personal and banking details. Those details are then stolen, and no vaccine is provided.

#### Shopping scams

This is now happening with vaccines. Once you pay the supplier, they never actually send you the goods, which is why you should only ever get one from reputable sources and never from the internet.

#### Impersonation scams

Fraudsters pose as members of trusted organizations, such as healthcare providers in order to gain your trust and offer vaccination or testing, for a fee. They then take the money and run.
